A. MONTGOMERY WARD

THERE is no one word that fully describes him. If we were compelled to use only one word, it would perhaps be "character."

Montgomery Ward saw his great work in life. With his rich mind and steadfastness of purpose he could have succeeded in almost any line of business.

It happened that he knew farmers and loved them. He understood the hardships they endured and under which they labored. He saw their unending battle to bring a livelihood from the soil.

Montgomery Ward brought the markets to them. His character showed through in every circular he mailed, in every transaction he entered, in everything he did.

He succeeded because he was worthy—because worthy people believed him implicitly and never had occasion to doubt his honesty and sincerity of purpose.

WILLIAM McCANDLESS
A Customer Since 1872

IN the early days before the railroads, Mr. McCandless came into Iowa and settled on new land near where the little city of Whiting now stands. He is now president of The Farmers' Cereal Co., Sloan, Iowa, and is recognized as one of the progressive men of his community.

"I have seen this country develop from an open prairie into one of the richest states in the union," said Mr. McCandless, "and I know how much of this development was made possible by the mail order houses. We people who grew up with the country know how great a debt we owe to you."

"I received my first Montgomery Ward price list in 1872, and I became a customer almost immediately. The catalogue has been coming regularly ever since, and I have been doing business with Montgomery Ward & Co. practically all of that time."

"I wish to state that in all of those years there has never been any occasion to make a complaint or to return any goods we have ordered from Montgomery Ward & Co."

"It has been a pleasure to do business with a firm which is always on the square."

The Romance of MONTGOMERY WARD & Co.

WHEN A. Montgomery Ward conceived the idea of selling goods direct to farmers at one small profit, he looked ahead many years.

That was in 1872—fifty years ago! Perhaps even then he foresaw the great achievement of the present House of Montgomery Ward & Co. Perhaps even then he knew that he was building on a sure foundation—that he was erecting a Business Structure that Time could not destroy.

He knew that for him and the people he expected to serve by mail, there was one and only one principle that could be the cornerstone of his business—the Golden Rule in spirit and in fact.

This principle he established from the very first order he received. It has lived. It is living and always will be the dominating force of Montgomery Ward & Co.

The Beginning

A. Montgomery Ward originated the mail order business in 1872. He had one small room twelve by fourteen feet. It was here that his big idea became an actual fact.

He had worked in a small general store in St. Joseph, Michigan. The customers he waited upon were largely farmers. He knew them and liked them. They were customers, and they were friends too. From them and from his own experience he knew farm conditions, the farmer's needs, his likes and dislikes, the pleasures and the difficulties of the farmer. He saw that the farmer wrested a hard living from the soil, and that buying goods was a matter of great inconvenience and little satisfaction. He saw the farmer, with no good markets readily accessible, was not getting a proper return for his time and money. Before the farmer could buy things to wear and things to use, he had paid several profits on them.

Mr. Ward determined to change all this. He decided to bring the markets to the farmer; to sell him worthy goods through

GEORGE R. THORNE

WITH unerring judgment, Mr. Ward chose George R. Thorne to become his partner.

It couldn't have taken long for Mr. Thorne to catch some of the fire of inspiration that enabled them both to face any difficulty and overcome it.

There must have been many times when the intense loyalty and friendship of Mr. Thorne were priceless helps to Mr. Ward.

Breaking away from accepted methods of trading was very hard. Financial troubles beset them. In making friends of the farmers by selling good goods at lower than market prices, they undoubtedly made some enemies of those who found that the farmers were no longer at their mercy.

But it is enough to know that these two men lived down prejudice and by sheer force of doing right, built this big business.

MRS. EMMA E. MERRICK
A Customer Since 1872

FOR fifty years, ever since Montgomery Ward & Co. was started, Mrs. Merrick has taken a keen interest in its development.

"I have been a customer from the first," she said. But her first acquaintance with Montgomery Ward was not as a customer.

"When I came to Chicago as a bride," she said, "one of our neighbors was a well known Chicago merchant. One night during the Chicago fire he brought home nineteen of his clerks who were worn out from carrying goods to the lake front, and made up beds for them on the floor. One of these young men was A. Montgomery Ward, founder of this great business."

Some time later this neighbor showed Mrs. Merrick a thin little booklet about the size of an ordinary almanac. "This is a new idea in business," he said, "and I think it will succeed." It was the first Montgomery Ward catalogue.

Mrs. Merrick now lives in Malcolm, Iowa, and receives our catalogue regularly.

"I have always had the most courteous treatment from you," she said. "I believe that much of your success has been due to your unflinching policy of fair dealing."

REV. G. R. MENTE, Ph. D.
A Customer for a Quarter of a Century

MY ACQUAINTANCE with Montgomery Ward & Co. covers more than a quarter of a century," says the Reverend G. R. Mente, pastor of the M. E. Church at New Washington, Ohio. "During that time I have purchased thousands of dollars worth of goods from you. I am a regular grocery customer because I find your prices mean a substantial saving to me. "My dealings with Montgomery Ward & Co. have always been very pleasant. One of the most admirable things about the firm is this: If Montgomery Ward & Co. says 'All Wool', I know I can depend on a 100 per cent article—if it says 'a yard wide' I know it means 36 inches."

MR. F. E. WILLIAMS
A Customer Since 1883

I SENT my first order to Montgomery Ward & Co. in 1883," said Mr. Williams. My father moved from Vermont to a homestead in Nebraska, 40 miles from a town. My mother had to pound the coffee in a sack, so for a surprise I ordered a coffee mill for her from Montgomery Ward & Co. It was a good coffee mill—I have it yet. I also have a Ward's sausage grinder which I have used 25 years. Mr. Williams is now farming near Lewellen, Nebraska. "I am still trading with Montgomery Ward & Co.," he said. "I have always received courteous treatment and a square deal from them, and they have saved me money."

MR. HORACE ROSENCRANTZ
A Customer Since 1884

I HAVE been trading with Montgomery Ward & Co. for 38 years, and I consider that I have saved \$20 on every hundred dollars worth of goods," said Mr. Rosencrantz. Mr. Rosencrantz is a self made man, and he believes that he owes much of his success to knowing how to buy wisely. He was born in New York state, but his family came to Iowa in 1869. He now lives in St. Edward, Nebraska, where he owns a 640 acre farm. Said Mr. Rosencrantz: "I always knew a good bargain when I saw one. That is why I sent my first order to Montgomery Ward & Co. and why I am satisfied and still buying there after 38 years."

printed descriptions sent by United States mail; to buy the goods direct from manufacturers and deliver them direct to his customers with only one small profit.

George R. Thorne Becomes a Partner

It wasn't long before Mr. Ward realized that he had undertaken a task too great for any one man's hands and brains. He needed help. So he chose his friend, George R. Thorne of Kalamazoo, Michigan, to help him as a partner in the business.

As the business grew they moved into larger quarters and hired their first employe—a boy. Up to this time the business had been done through circulars, but now they printed their first catalogue, an eight page book about three by five inches in size. It was only a price list with no-illustrations and contained but a few dozen items, most of which were dry goods. But their prices were right. They treated their customers fairly and in turn were treated fairly by their customers. They guaranteed "Satisfaction or Your Money Back" and lived up to the letter and spirit of this guarantee.

Their sales climbed to \$100,000 a year.

The business grew so big that more capital was needed. Mr. Ward went to New York and actually succeeded in closing a contract for \$150,000 worth of goods on credit with the understanding that he was to pay a profit of only 2½ per cent over manufacturing costs. This enabled him to sell at extremely low prices which brought him more and more business, thus permitting him to buy again and again at the lowest possible prices and to sell goods to his customers at great savings.

In 1876 the catalogue had grown to 150 pages with illustrations. They had a variety of merchandise and they did a total business of \$300,000 for the year. Their customers were increasing rapidly. The House of Montgomery Ward & Co. was being firmly established in the minds of farmers and people living in rural communities, and over the arch of this House, as if lettered in metal, was the "Golden Rule." No wonder the business grew! They sold nothing but goods that were right; that had been selected with a knowledge of the customers' needs; that had been bought right; that were sold at right prices and were worthy of the guarantee. Whatever promise was made was fulfilled. Their printed statements were as truthful and exact as their knowledge and painstaking care could make them.

MRS. S. GILBERT
A Customer Since 1872

I REMEMBER well when Montgomery Ward & Co.'s first catalogue came to our home," said Mrs. Gilbert of Atlantic, Iowa. "I was 11 years old then. How excited we were over sending the first mail order, and how impatient for the goods to arrive. They did come quickly, too, and how pleased we were with them when we unpacked the box. This first order was followed by many, many more. In an early day the Gilberts removed to Benkleman, Nebraska, and took up the hard life of the pioneer. Then," she said, "the Montgomery Ward catalogue held a place of importance in our home. It was a real link between us and civilization."

MR. T. W. KENDRICK
A Customer at Home and Abroad

MR. KENDRICK has for many years been inspector of timber for a great railway system. In connection with his work he has covered the timber sections of the western and middle western states and has spent five years in Japan and Hawaii. From almost every point in these sections and even from abroad, he sent regular orders to Montgomery Ward & Co. He tells us why. "I have always found you absolutely fair," he said. "My orders have always been satisfactory except in a very few cases, and these have been promptly put right. If any firm can be fairer than that it will have to hustle some."

MR. GEORGE BEATTY
A Customer Since 1877

MR. BEATTY is a real pioneer. He is the only man now doing business in Helena who came to Montana in 1862. He served under General Johnson in Utah (1857-8) with the 2nd U. S. Dragoons which escorted Gen. Fitz John Porter from Fort Leavenworth to Fort Bridger; followed the gold rush into Idaho and back to Montana, and finally settled on the big pleasant ranch near Winston, which is now his home. "I have traded with Montgomery Ward & Co. for 45 years," he said, "and I have never found anything wrong that has not been satisfactorily settled. If you continue to deal as fairly with your customers as you have in the past you will surely prosper."

PETER P. BAUKOL
A Customer Since 1882

I HAVE tried other mail order houses, but I always come back to Montgomery Ward & Co.," said Mr. Baukol. "I like their fairness in handling the little mistakes that sometimes happen."

Mr. Baukol sent his first order in 1882. Since 1884 he has lived near Twin Valley, Minnesota, where he now owns a fine farm. He recalls vividly the days when this country was a wilderness and he sent big orders to Ward's Chicago House twice every year. He now sends frequent small orders instead. "Because," he explained, "the service from Saint Paul is so good. I like the prices, the quality of the goods and the quickness of the delivery."

E. L. STRATTON
A Customer Since 1880

WITH this garden tool purchased from Montgomery Ward & Co. in 1880, Mr. Stratton, president of the Two States Oil Co., Pecos, Texas, recently raised "the most wonderful garden in Texas." "Your name is a household word in our family," he said. "My little nephew once finished asking the blessing with 'Bless Montgomery Ward & Co., Amen.'" For over 40 years Mr. Stratton has been a regular customer, buying as much as \$150 worth of goods a week. "My dealings with Montgomery Ward & Co. have been very pleasant," he said. "You furnished goods exactly as represented, were prompt and reliable and as anxious to refund or adjust as you were to sell the goods."

MR. and MRS. J. H. HOLMES
Customers Since 1878

I SAW my first Montgomery Ward catalogue in an order shipped to the Grange at Colusa, Illinois, in 1874," said Mr. Holmes. "I recall how elated everyone was with the goods you sent and the money they had saved on them." Mr. Holmes has farmed in Arkansas, Illinois, Nebraska, Iowa and Missouri, and from all these states he traded with Ward's. He still uses a razor purchased from us in 1878.

Mr. and Mrs. Holmes have ten children, all Ward's customers. "I believe," said Mr. Holmes, "they and their families will receive the same excellent service that Montgomery Ward & Co. has given me and my family during these many years."

Within the next four years the business mounted to \$2,000,000 a year. In 1900 they erected in Chicago, on Michigan Boulevard at Madison Street, the great structure bearing its high tower and standing even now as a monument to a great achievement.

By 1906 this growing business had expanded to \$18,000,000. This year was a milestone in the progress of Montgomery Ward & Co. A mammoth plant covering three and a half acres of ground was erected on Chicago Avenue. The following year the Kansas City plant was begun. A number of factories were bought and soon followed the opening of branch houses at Fort Worth, Texas, and Portland, Oregon.

The year 1920 saw the completion of a larger plant in Portland, Oregon, costing more than one-half million dollars. A plant was erected in Saint Paul costing three and one-half million dollars.

Some idea of the mammoth proportion of these buildings may be obtained by considering that these five plants have a floor space of over one hundred acres, sufficient to store \$60,000,000 worth of merchandise.

But buildings do not make a "House." The greatest achievement of Montgomery Ward & Co. has not been in the erection of these buildings. The buildings could be destroyed; all the merchandise they hold could be wiped out; this visible manifestation of the success of Montgomery Ward & Co. could be obliterated, but the Company would still possess its greatest asset. This asset is the Confidence and Good Will of more than five million people who are customers and friends of Montgomery Ward & Co. There is the significant story of growth—from the first patron, an Illinois Postmaster, to the five million customers now on our list. That is the enduring business structure that fifty years of fair dealing has built for Montgomery Ward & Co.

Looking Forward

This is our 50th Anniversary—a half century of Yesterdays has gone. Today we are making greater efforts to serve. Each day brings to us a greater sense of our responsibility to those old customers and friends who have been loyal to us; to the new friends we are making every day whom we feel are and will be an inseparable part of the House of Montgomery Ward & Co.

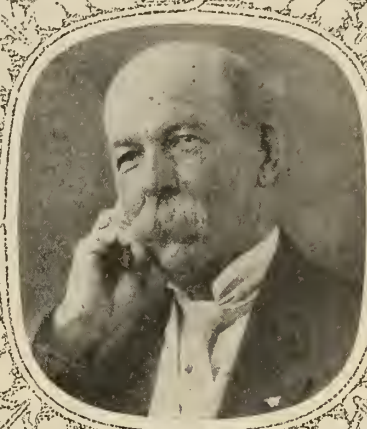

Fifty years old—Montgomery Ward & Co., the Oldest Mail Order House, is Today the Most Progressive.

MR. and MRS. ALLEN HAWK
"We Have Confidence in Ward's"

WE NEVER have any mail order catalogue but Montgomery Ward's in our house," said Mr. Hawk, Hedrick, Iowa. "We have bought from Ward's since 1897—we have confidence in them—we don't need to make comparisons."

Shopping from the Montgomery Ward catalogue is a family affair in the Hawks' household. They send us regular and generous orders. Mr. Hawk is very proud of a bot sled purchased from us 25 years ago which he uses every winter, and Mrs. Hawk boasts that she has bought Ward's groceries for 30 years. "We think there is nothing finer than the Triangle Brand," she said.

F. L. GIBBS
A Satisfied Customer Since the '70s

MR. GIBBS of Dexter, Oregon, is one of the many reasons why Montgomery Ward & Co. opened its Portland House. He is a native of Ohio and from there he sent his first order to Ward's. In 1891 he moved to Oregon, and from his new home he continued to send good size orders back to Ward's Chicago House.

Even after the coast country developed and markets were more accessible, Mr. Gibbs bought regularly from Chicago until the Portland House was established in 1903.

He says with pride: "I began trading with Montgomery Ward & Co. in the '70s and I have been a regular—and satisfied, customer ever since."

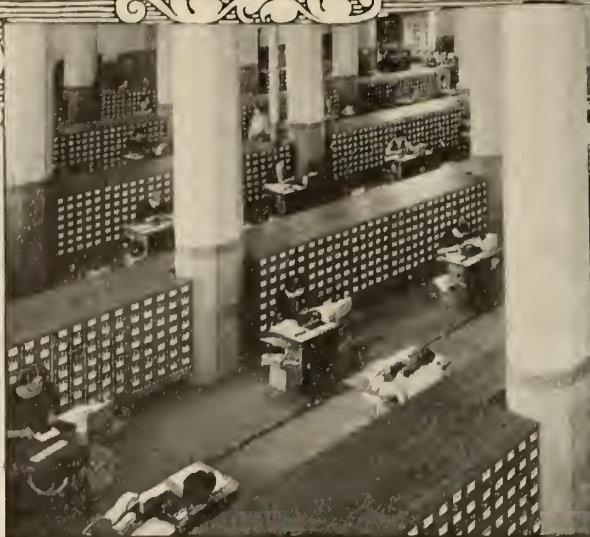

A. R. PIFER
Bought This Cultivator 25 Years Ago

THIS cultivator, which he bought 25 years ago from Montgomery Ward & Co., Mr. Pifer believes has "tended" more acres of corn than any other farm implement in the community. It is still in active service on Willow Hill Farm, Mr. Pifer's home near Carlisle, Indiana.

"My first purchase from Ward's," said Mr. Pifer, "was a gold watch fob which I bought when a lad of 16. None of the other boys had anything like it and I wore it proudly for many years."

Many things in their pleasant home came from Ward's, but the Pifers are especially pleased with our groceries and send us frequent, substantial orders.

During the fifty years of serving our customers we have developed each department of our business with one big idea in view—to give these customers honest values—to fill their orders promptly and efficiently.

In this mammoth room, a section of which is shown, are thousands of drawer files in which we keep the names and addresses of millions of our customers.

The pictures on these two pages will give an idea of the magnitude of our business. You will then understand our ability to sell you guaranteed merchandise at the lowest price consistent with good quality.

A section of our Mail Opening Department. Hundreds of thousands of orders and letters are opened and sorted here each week by trained employees.

Your orders are sent to our Entry Department, a section of which is shown. Here the orders are typewritten and sent to proper departments for filling.

This is a section of our Dry Goods Department where experienced employees use the utmost care in selecting the merchandise that you order from us.

Whenever you desire to write us, your letters will receive prompt and careful attention by efficient employees in our Correspondence Department.

Recreation Room where our employees gather during rest periods to be entertained with music and other features. Our restaurant is in an adjoining room.

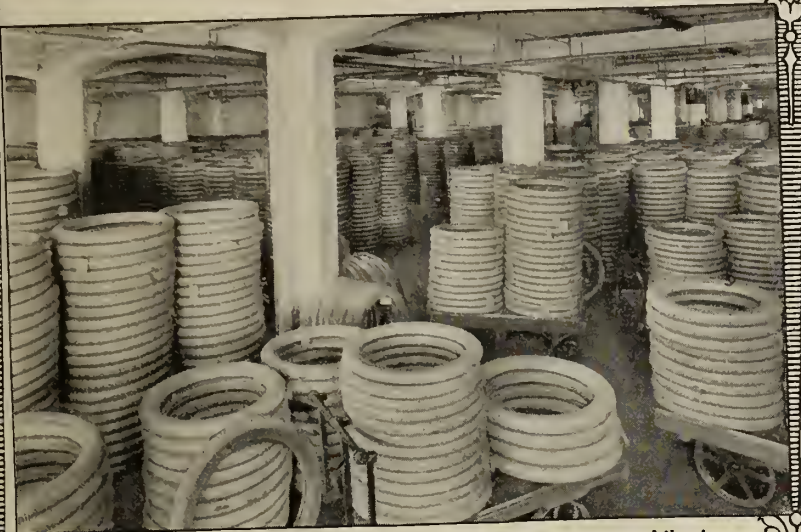

Those who prefer to read or study during their spare moments may do so in the above library, which is maintained for the benefit of our employees.

The keynote of Ward's policy is "Service to Our Customers". It is our aim to ship each order you send us within forty-eight hours after we receive it. The utmost care is used to fill your orders correctly.

To make sure that Ward's merchandise is worthy of Ward's guarantee is the duty of the experts in our Testing Laboratory. High quality is thus assured.

We have established branch houses where they serve the greatest number of people most efficiently. Large stocks of high grade merchandise are carried at each branch. All are equipped to render you prompt service.

One section of our fire-proof concrete warehouse space for automobile tires. Your orders for Riverside tires are promptly filled from these large stocks.

Parcel post shipments are assembled in this section, where they are carefully packed, weighed and stamped and sent to a U. S. post office in our building.

U. S. post office in our building where your mail is handled rapidly and efficiently by U. S. government employees. Much time is saved in this manner.

Freight shipments are assembled in this section of our Shipping Room. Your orders are carefully inspected before they are loaded into the freight cars.

To save time your merchandise is hauled from our Shipping Room direct to freight cars by electric truck trains, some of which are shown above.

To ship your orders without any loss of time we have railroad facilities right at our door. From 30 to 40 freight cars may be loaded here at one time.

The Foundation of all these Buildings is Your Faith in Us

A ROOM, twelve by fourteen feet, was big enough fifty years ago for the origination of the idea and the practical beginning of Montgomery Ward & Co.

These tremendous buildings have a floor space of more than a hundred acres—and the end is not yet.

For our work is an unending, daily task. As your needs grow our work grows. As you demand more goods, as your children grow up to a buying age, as more hundreds of thousands become our acquaintances and then our customers and friends, we must continually prepare ourselves in every way to give full, accurate, prompt service.

Buildings are erected. Factories grow up. People are trained—thousands of them are enabled to earn support for themselves and their families. And as each day brings its orders and letters from you, our employees are constantly aware that their sole duty during working hours is to see that you get ex-

actly what you want from us as quickly as you can get it.

These buildings are sermons in steel and concrete. They give us the strength and courage to go forward on the principle laid down in the small room fifty years ago—the principle of fairness to all, absolute sincerity and honesty of purpose and all that is summed up in the Montgomery Ward & Co. policy: "Satisfaction guaranteed or your money back."

Some of you who read these words have bought from us regularly for more than a quarter of a century. You know us. Some may not have sent us a single order. Regardless of whether you know us well or not, these buildings have this message for you: An institution which has grown for fifty years, which has kept its name clean and its purpose firm, which has gradually built up these enormous buildings, must sell the right goods at right prices and deal fairly with all.

The circle indicates the single room, about twelve by fourteen feet, in which A. Montgomery Ward originated the Mail Order business in 1872

To All Our Customers and Friends

from the President of

Montgomery Ward & Co.

I HAVE a very important announcement to make to you—something new and of great interest to all our customers. For over a year we have been studying how to give you better service, to handle your orders quicker and to ship your goods more promptly.

Our New System of Filling Orders

We have devised new systems. We have made changes, employed many experts and today it gives me great pleasure to announce a new perfected system that makes certain a very quick and satisfactory service to you.

During the last five months ninety-six orders out of every one hundred were shipped in less than 48 hours after the orders were received.

This new improved service warrants our saying that practically every order received by us this season will be shipped in less than 48 hours.

The full story of this new perfected system of handling orders is told on Page 322-B. Please read that page.

How We Learn Your Needs

I want also to tell you of other work we have been doing. Our buyers have been spending part of their time visiting many of our customers at their homes. Our representatives are constantly calling upon many of you, getting your ideas, your criticisms, your suggestions.

All of this has helped us in improving our service to you. We have learned much from you. We have learned the kind of merchandise you want. We have learned that you do *not* want cheap merchandise—that you *do* want good merchandise sold cheaply. We have learned that you want only dependable merchandise of serviceable quality.

Cheap Merchandise— A False Economy

You know the false economy of low prices made at a sacrifice of quality—you know you would rather have a pair of shoes at \$3.49 that will wear six months, than a pair at \$2.49 that will wear only three months.

You have shown us how much you appreciate the always dependable merchandise we sell, and how much you appreciate the quicker handling of your orders and the better service we are giving you.

Prices at the Bottom

I want also to say a few words to you about prices. Prices appear to be at the bottom. Some things even seem to be going higher.

Now is the time to buy the things you need. And at the prices quoted in this catalogue you can buy with full assurance that you are getting the biggest possible value for your money.

This book offers only new, fresh merchandise—it illustrates and describes each article truthfully and without exaggeration. You can be sure that every statement in this catalogue is true.

We thank you for your patronage. We are proud to think that five million people buy from us on faith in the name "Montgomery Ward & Co." And now with lower prices, only dependable new goods to choose from, with our new system of making prompt shipments, we solicit a greater share of your trade.

MONTGOMERY WARD'S Fashion Rooms in New York are the scene of our story. Our own Fashion Experts are at work making their selections for this catalogue. Not hundreds, but several thousand new coats pass their inspection. For every coat shown in this book, fifty styles were compared side by side. It was the work of weeks to make each coat the most stylish, the most delightful and serviceable and the greatest possible value.

We picture in these pages the results of our work—the chosen few, the best coats selected from all that New York produced.

The New Styles: You will see for yourself the wide variety. There are coats for every woman and for every use. There is a coat here just for you.

Best of All, Great Values

There can be no question of correct style—no question can arise of serviceability. But the greater value offered in Ward's Coats is almost impossible to describe. More than a dollar's worth of service and satisfaction for one hundred cents is our promise, no matter what coat you choose. Select your coat from these pages. Wear an approved, authoritative New York style and make a worthwhile saving of dollars besides.

THEY look and feel like Real Fur Coats. These lovely coats are made of genuine Silk Seal Plush. The deep pile of this lustrous, fast black material has the luxurious feel of natural fur.

The coats are exceptionally warm, yet they are light enough in weight to be comfortably worn while walking or riding. They are cut on full, sensible lines, and you will get lots of wear from them—even more than you would from many a fur coat. The linings, important though unseen, are made for lasting service. The tailoring is skillfully done.

Many of the coats are lined with Silk, while the collars and trimming are made from Coney Opossum, in both black and natural; caracul and moufflon.

You may have your choice of many pretty styles—full length coats; shorter, jaunty three-quarter length coats; wraps and capes.

Prices are as low as \$10 for a three-quarter coat and \$12.98 for a full length model.

Look at No. 10 C 174 on Page 13. It is a coat we especially recommend, and is made of Baffin Seal Plush—the finest grade of pile fabric. It is lined with fine Silk and, inside and outside, will wear longer than a genuine fur coat. You will make no mistake by sending for this handsome wrap.

Silk Seal Plush Coat Coney or Opossum Fur Collar

10 C 30 You would find it difficult to duplicate the richness and beauty of this Black Silk Seal Plush Coat at anywhere near this Ward price. The material has a rich, lustrous deep pile noted for its exceptional warmth and durability as well as for its beauty.

It is full lined with serviceable, good quality Twill. Fashioned on loose, comfortable lines and adjusted at the waist with a belt of self material. Deep turn back cuffs finish the sleeves and the front displays two inserted pockets. The handsome convertible collar you may have of either genuine rich brown Coney Fur or Black Opossum Fur.

An Exceptional Coat Bargain

C 38 This handsome, Seal Plush coat is one of our special bargains. In order to offer you the biggest coat value you have ever known, we purchased hundreds of these beautiful coats and priced them so low that you will save dollars in its purchase—for it is the same quality we sold last season for \$17.98.

Made of deep pile, lustrous Silk Seal Plush, in smart belted style and full lined, it combines much of the beauty of a fur coat at a mere fraction of the cost. It is a coat in which you always feel well dressed, because the luxurious and beautiful fabric of heavy, curly pile, closely resembles genuine mink. The full lining of good quality Twill insures you additional warmth and service.

Cut on roomy, comfortable lines adjusted with an all around belt of self material. Convertible collar of Seal Plush and button trimmed cuffs. Two inserted pockets.

Made Like Men's Coats for Women and Misses

10 C 74
All Wool
Plaid Back
Coating
\$16⁴⁵

YOU should see these coats. They are tailored exactly like men's coats.

They are big and warm and snug. The soft, fleecy, winter weight fabrics (in solid colors and tweeds) certainly keep the cold out where it belongs. The only cotton used in these coats is for binding the backs to the surface fabric. Thus nine-tenths of the fabric used is All Wool.

Lovely enough for occasions, these mannish coats have a long life of everyday service in them.

If you could see them, if you could notice the tailoring and the fine, fleecy fabrics, your judgment would price them at least ten or fifteen dollars higher than the prices we ask.

How to Measure for Women's Outer Garments

Bust Measure: Place the tape line entirely around body over fullest part of bust, close up under the arms. Do not take this measurement too tight and do not allow tape to slip down in back.

Waist Measure: Take this measure over your skirt all around the natural waist line. The number of inches shown by the tape is your correct waist measure.

Hip Measure: Place tape line around fullest part of hips over your skirt 7 inches below your natural waist line. Do not allow tape measure to slip down.

Front Length of Skirt: Measure from your natural waist line in front down to whatever length is desired.

10 C 82 One of the smartest coats for general winter wear. An expertly tailored model in which luxurious warmth and comfort are combined with smart, up-to-date style in a practical coat of winter weight double faced All Wool Coating. A handsome fabric noted for its beauty and service.

Cut on full, generous lines and made with a convertible notch collar, wide raglan sleeves and a buckle trimmed belt of self material. Two muff and two large patch pockets. Handsomely tailored welt fold finishes the back. A most exceptional value which offers you a cash saving.

Boyish Coats for Girls and Misses

WHERE could you get more practical or smarter coats than these sheepskin lined Chappie models with fur collars?

They have a jaunty air and an attractiveness of design which expresses genuine style and solid comfort.

Made of Moleskin Cloth and Suede fabrics thoroughly tested for wear-resisting qualities before a thread of them was used. As a result the coats are dust and dirt repelling, sturdy and strong to resist the hardest kind of service.

Large, fur collars to button up around the neck in zero weather—stormproof and windproof. Wide, comfortably cut sleeves, wool lined and leather lined. Deep, roomy pockets. All combine to guarantee the splendid comfort of these coats in the severest weather.

Our special prices are so low that your daughter may have an extra coat this season.

ONLY the best of the latest styles, chosen by Montgomery Ward & Co. fashion experts, are offered to you here. From the Fall style openings we made our choice of the best models we could find. Then we developed these styles and made them of the season's best fabrics.

You can depend upon the result—for beauty, service and value, at a price you can pay.

MATERIALS: There is a rich variety of choice for you. All wool velours, serges, tricotines, poiret twills, jersey and all wool crepe, all silk Canton crepes, wool Canton crepe, crepe de chine, taffetas, velveteen, crepe velour, and faille silk.

STYLE: The new combination coat and frock dress, smartly tailored one piece coat style, cascade or long panel effects. Tunic models will be popular, too, and the straight line silhouettes and low hem line dresses.

The combination of lace and Canton crepe, with the uneven hem, has a charm and grace all its own.

Long waist line styles and simple blouse models are to be the favorites of many well dressed women this season.

TRIMMINGS: The most dominant single touch in new trimming effects is embroidery. Novel designs in chenille, silk and wool, work out beautifully. Here and there hand-beaded trimmings strike just the right note.

Then, of course, there are dainty hemstitching, tucking, pleating, filmy lace and flowers of self material—all to add their share of loveliness to these dresses.

Sometimes, the right touch of Paisley pattern is used. Or crepe knit or fancy stitching in harmonizing colors. There are plain and novelty braids, fancy cords, tassels and metal belts—everything that the season offers in trimmings has been tastefully used to make these the most beautiful dresses we have ever made for you.

NECK LINES: The new neck line, much mentioned as a factor of Fashion, has been given the importance it deserves in Ward's dresses—hence the Bateau, straight from shoulder to shoulder, is shown in some models. But all are there—the round, oval, "V" shaped, square neck, semi-high, upstanding, Bramley, Tuxedo and rolled collars. Whatever neck line is best for you, you may have it.

SLEEVES: Which style of sleeve do you prefer? The elbow, three-quarter or novel slashed sleeves are popular. You can choose the loose Mandarin, Jenny, Bishop, Bell, Peasant, Raglan, Mousseline and Kimono—and know that whatever you choose will have just the right novel style touch that makes it something more than a cover for your arm—an added beauty.

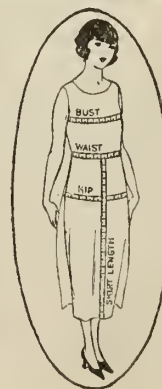

COLORS: What a wonderful line of colors the season brings you! There are your old favorite colors and many new ones—Seal Brown, Navy, Black, Henna, Taupe, Gray, Barbary (Dark Red), Marjolin (Copen), and Fog (Gray).

VALUE: Here is the greatest reason for buying these dresses. They are beautifully made of materials that are good, and no dress with a Ward label ever had more real value in every stitch from neck to hem, in every inch of material. Look at these prices.

How to Measure for Outer Garments

Bust Measure: Place tape entirely around the body over the fullest part of bust, close up under the arms. Do not take this measurement tight and do not allow tape to pull down in back.

Waist Measure: Take this measure over your skirt all around natural waist line. The number of inches shown by the tape is correct waist measure.

Hip Measure: Place tape around fullest part of hips over skirt, seven inches below your natural waist line. Do not allow tape to pull down.

Front Length of Skirt: Measure from your natural waist line down to whatever length is desired.

NOT too extreme in style, but a simple, delightful interpretation of the latest fashion, which enables you to wear these suits for a long time and always look well. With the good materials and fine workmanship, these suits must have style that carries through the life of the suit.

All the new models are here. Long straight tailored effects—shorter, jaunty box coats and loose flare back models sure to be popular this season.

The materials are fine all wool velours, all wool tricotines, all wool serges, all wool poiret twills and llama cloth (which is a suede finished, all wool velour that makes up into a beautiful suit).

All the suits are interlined. All have narrow belts. Loose back suits are designed for belts to be worn only in front or all the way around.

Embroidery trimming is the season's newest touch.

Fur collars that button high to the neck for extra protection are used throughout the line.

Excellent Quality Human Hair Three-Stem Switches

By the simple addition of this perfectly matching switch, many women have been able to arrange their hair in such a way as to bring out their greatest charm. Used as a single braid it gives the rich effect of an abundance of hair. Arranged combed out in separate strands, the soft fluffy quality of the permanent waves is displayed to good advantage. You will find this switch a great aid in dressing your hair in the most becoming style.

Made very full from a lovely quality of human hair practically impossible to duplicate at our low price. Mounted with silk loops on short stems which are easily concealed beneath your own hair. The fine wave is permanent and greatly assists in making an attractive coiffure.

In ordering, be sure to send a fair size sample of your own hair to be matched. This switch is finished in any shade except gray or white.

Allow one week for properly matching and making.

A New Ear Wave Becoming To Women Of Almost Every Type

By the addition of this new Ear Wave, many women will find it easy to arrange their hair in the style most becoming to them. The arrangement shown is one of the most popular now in vogue. It looks well on almost every type. In order to wear the natural hair in this style, it must be kept curled—in many cases a tedious undertaking. With this permanently curled ear wave, the effect may be secured in a few minutes. Fastens with pins at top of head, and falls in marceled waves over the ears and neck. Send sample of hair. One week required for making and matching.

How to Measure for Wigs and Toupees

Wig Measurements
Wigs for men and women must be accurately measured according to chart illustrated above.
Number 1. Around the head at edge of hair. (Average, about 22 inches.)
Number 2. From center of hair line at forehead to nape of neck at back. (Average, about 13 1/2 inches.)
Number 3. From ear to ear across the forehead. (Average, about 11 1/2 inches.)
Number 4. From ear to ear over top of head. (Average, about 12 inches.)
Number 5. From temple to temple around the back of the head. (Average, about 14 1/2 inches.)

Toupee Measurements
Cut a piece of tissue paper to fit bald spot, and crease it there until it fits the shape of the head; paste the creases securely. Draw a line where hair is to be parted and mark pattern "front," "right," and "left" sides. State size of hat, state if hair is straight or curly, and send a fair size sample of hair.

How to Measure

It is a mistake to order Gloves too small. Get the correct size, and your gloves will fit better and wear longer.

To find correct size, draw a tape measure around hand as shown in picture above, not tightly, and not including the thumb. To the number of inches shown, add ¼ inch for your correct glove size.

Ward's Juliette Corsets

Six Months Wear Guaranteed

Perfect fit is the first requirement of a corset, and this depends upon the boning and materials used. They are the foundation of shape in a corset, and also preserve its original good lines. Ward's Juliette Corsets are made with our own special unbreakable steels, guaranteed not to rust, break, warp, split or crack. The steels are flexible and allow the corset to follow easily and naturally every bend and movement of the body. Each piece of material in Ward's Juliette Corsets is carefully selected and tested, and the workmanship throughout is of the very best. Among these five models you will find the corset which will best suit your needs. If it wears out within six months we will replace it with a new corset. We include with each corset on this page one 8-yard mercerized lace.

What We Mean by A Pair of Blankets

A Pair of Blankets is two blankets woven in one continuous length. For example, a pair 72 by 80 inches is one blanket 72 by 160 inches.

How to Wash Blankets

Dissolve two tablespoonsful of Lux, Ivory Flakes or any other pure soap, chipped fine, in a gallon of boiling water. Whisk the soap flakes into a rich lather, then add cold water to make the suds lukewarm.

Put the blankets in and work them up and down, at the same time turning them, but do not rub, as rubbing is likely to make any blanket, either cotton or woolen, stiff and matted. Where there are soiled spots squeeze through the cleansing suds again and again until spots disappear.

Rinse in three clear waters of the same temperature as that in which you have washed them. In the last rinsing water, add a small quantity of soap flakes—not enough to make a lather. This makes them soft and fluffy.

for Warmth
and Comfort

Nashua Woolnap Blankets

Nashua Woolnap Blankets Keep You Warm

Warmth is not a property of wool or cotton. Blankets made from either material give no warmth themselves; they serve only to "hold in" the warmth of the body. Woolen blankets are warm because of the **STRUCTURE** of the wool; the crinkly fibers form countless little air spaces, while ordinary cotton fibers usually lie flat and smooth. By adopting the structure of wool, the NASHUA WOOLNAP Process gives to Nashua Woolnap cotton blankets far greater heat-retaining qualities and makes them much warmer than any ordinary cotton blanket.

Why It Pays to Buy Good Linens

"How good" is much more important than "how much." Divide the prices you paid for your different linens by the number of years' service they have given and it is easily seen that long wear—not low price—really means low cost. Not only is there an actual saving of money, but you find the patterns more pleasing and enjoy the deep satisfaction of knowing that you possess the best.

Read About Our Yarns

For many years superiority in quality, softness, durability and wonderful colorings have given Ward's yarns an enviable reputation. Our Worsted Yarns are made from the best grades of long combed fibers and are evenly spun and full bodied. They have been selected to give you the best yarn it is possible to obtain in all the desired shades. "Satisfaction Guaranteed or Your Money Back" has been our policy for 50 years.

To insure uniformity of color it is advisable to order sufficient yarn at one time to complete a garment.

Knitting Made Easy

The Bison Instruction Book has 60 pages, beautifully printed in colors, showing all the standard designs in knitwear for infants and adults. The instructions and illustrations are so simple that beginners may follow them easily. With each design is indicated size of needles or crochet hooks required for the work; and in many of the illustrations, various color combinations are shown.

This book will be found very useful, not only to beginners, but to those looking for new suggestions.

New Model Thornward 18-Section Adjustable Dress Form

Any home dressmaker may quickly and economically make perfect fitting dresses. The Dress Form shown at the right is adjustable to various styles or shapes. The bust, waist and hips individually may be increased or decreased in size, and raised or lowered; the back, front and underarm may be lengthened or shortened independently; neck made large or small; and skirt adjusted to any length. The sections operate on friction slides. The telescoping skirt permits the operator to lower the form to any desired height while sewing on the collar or basting in the sleeves. You may sew in comfort while seated on a chair. Closes to about half size and occupies little space when not in use. Body is fiber papier mache covered with jersey cloth, which permits pinning. Simple to operate. Adjustments are made from the outside without changing the position of other parts. Lower part of stamped nickel-plated steel bands.

Ward's
TU TEX
UNDERWEAR
REG. U.S. PAT. OFF.

TU TEX—the Two Fabric garments which keep you warm with a WOOLEN EXTERIOR—and comfortable with a smooth COTTON INTERIOR. The snug warmth of soft wool underwear—how often on cold wintry days, have you wished you could enjoy it, without experiencing the irritation which wool invariably brings to a sensitive skin! Tu Tex solves the problem. Tu Tex is two separate fabrics, one wool and the other cotton, knitted together in such a way as to produce the appearance of a single fabric, the wool outside and the cotton inside. The soft, non-irritating surface of cotton comes in immediate contact with the body, while the warmth producing wool is on the outside.

Between the two fabrics is an air space which serves to protect the body from sudden changes in temperature such as is occasioned by passing from a warm room to the out of doors. Yet Tu Tex garments are not too heavy. With them you will experience underwear comfort which you never had before. You will be warm and comfortable—and you will be relieved of the burden of heavy wool underwear, too weighty for comfort.

Tu Tex Underwear is made in several qualities, each quality a splendid value at the price. You will find these garments excellent in fit, in finish and in wearing qualities.

WEAR TU TEX THIS WINTER

Heavy Weight—Part Wool
Comfort is assured in this warm Tu Tex Union Suit made in high neck, long sleeve, ankle length style. Neck and front are trimmed with a neat crocheted edging. Smooth, flat seams throughout prevent any possibility of irritation from that source. Fine part wool makes the outer surface, and soft, fine cotton attached to the wool forms the smooth soothing interior.

Heavy Weight—Part Wool
Dutch Neck—Elbow Sleeve

It's the smoothness—the wool warmth and the perfect fitting qualities you'll like about Tu Tex. This Suit is made with Dutch neck, elbow sleeves; ankle length. Open part way down the front. Has smooth, flat seams; neat crocheted edge in front and around neck. There are two qualities in this style. The difference is a matter of grade of material and of price.

Fiber Silk Striped—Part Wool

Low Neck—Sleeveless—Ankle Length

For women who like the warmth which wool underwear affords, yet who are annoyingly irritated when wool is worn next to the skin, Tu Tex underwear is the solution. This particular Union Suit is a very handsome garment with the exterior of finest part wool, with a stripe of fiber silk running through. The interior is of pure, fine cotton, which provides a soft, soothing inner surface.

The sleeveless, low neck style of this union suit commends it to many who prefer no sleeves and low neck, combined with knee length. It has a plain band top, with fiber silk draw tape. All seams are flat and smooth. The price we ask for this suit is very reasonable, quality considered.

Tu Tex Suits

Bodice Top—Knee Length

You will not find it easy to match this splendid value—a Tu Tex Union Suit for women—one of the finest, most comfortable suits obtainable—and at a price far lower than you usually pay for such quality. Remember that Tu Tex is the two fabric garment—two materials, cleverly joined to provide the soft, comfortable interior of finest cotton, and a warmth producing part wool exterior. This suit has a fiber silk stripe running through the wool of the outer surface. The style is the popular bodice top, knee length, with band top run through with a fiber silk draw tape. A cuff at the knee makes it fit neatly and snugly at this point. Flat, smooth seams are used throughout. Has shoulder straps of dainty ribbon. Warm enough for comfort in the coldest weather, yet not too heavy in weight.

The Health Underwear

Try Tu Tex for Your Boy This Winter

Scratchy underwear will not improve the disposition of any boy. Let him wear Tu Tex. It provides wool warmth and cotton smoothness to a degree unattainable in ordinary garments. Tu Tex—two separate fabrics—one wool, the other cotton—knitted together in such a way as to produce a single fabric the wool outside the cotton inside. Twice the warmth, with less weight. Will not irritate the skin. Provides a greater degree of underwear comfort than the wearer has ever before known.

The quality of the two suits quoted here is better than you ordinarily would expect at the price. The "good quality" suits are knit of excellent grade wool and cotton (wool on the outside, cotton on the inside). It is heavy weight—has collarette neck, flat seams throughout. Made in closed crotch style. One of the finest suits you could buy for your boy at such a price.

The "better quality" suits are made of very good quality wool and cotton, and in the same style.

Winter Suits for Children

Ward's
TU TEX
UNDERWEAR
REG. U.S. PAT. OFF.

Tu Tex is the ideal underwear for children. It is "health" underwear because it keeps the little folks warm without weighing down their young bodies with heavy, burdensome garments. With its two-fold construction it provides a soft, smooth and comforting surface of cotton next to the delicate skin, and warms with an outer surface of warmth producing wool. It does what ordinary wool or wool and cotton garments can not do, inasmuch as Tu Tex protects with its softness the body which its wool fabric warms. Tu Tex comes in several qualities, each made to give a greater amount of wear than you ordinarily would expect at the price.

Three Very Popular Waist Union Suits

"Comfytog" The Best Suit Made

TU TEX
UNDERWEAR
REG. U.S. PAT. OFF.

**Wool Warmth
and
Cotton Smoothness**

Any wool underwear will keep you warm, but not all wool underwear will keep you comfortable. Many people can not wear wool next to the skin without discomfort. Tu Tex provides cotton smoothness next to the skin, and wool warmth outside.

Two separate fabrics—one wool and the other cotton—are knitted together in such a way as to produce the appearance of a single fabric. The soft, non-irritating cotton comes in immediate contact with the body and the warmth producing wool is on the exterior. You get the benefit of the wool without any irritation. Note in the illustration how this is accomplished. When you wear Tu Tex you get underwear comfort you never have experienced before. Tu Tex gives greater warmth and greater comfort with lighter weight fabric.

All Wool Fancy Brown
Cassimere

SIZES: 9 to 17 years.

The Suit above, as well as each suit on this
page, is designed to meet the requirements of a
"rough and tumble" boy. City, town and
country boys all are alike when it comes to wear-
ing out clothes. Each suit is provided with two
pairs of knickers. This means added wear from
the suit, greater convenience for the boy and
greater economy for you. The same suit does for
play and for dress. After the play pair of knickers
are worn out, the other pair of trousers makes the
suit still good. It need not be discarded. This
garment is a striking example of the quality of
"Young America" Suits for boys. It is designed
and tailored in every detail to meet our highest
requirements of workmanship. A fall and winter
weight in a rich All Wool brown cassimere.

Heavy Warm Ulster of Dark Gray or Dark Brown Melton

SIZES: 10 to 17 years.

Mothers, when your boy starts out for school on cold winter mornings you will want him to have the protection of one of these big, roomy ulsters.

The garment offered here while moderate in price is made from heavy Melton. The fabric contains 80% wool with just enough fine cotton added to strengthen the material, so that it will stand the hard wear that boys give their clothes. Has four roomy pockets with heavy linings that will keep the hands warm. Belt fastens with a metal buckle. The coat is lined throughout with a good wear resisting material. Pockets and belt loops are bar tacked to prevent ripping. Buttons and seams are strongly sewed, which relieves mother from the troublesome work of mending.

At our low price you should not hesitate to provide your boy with one of these serviceable garments.

Gray, Black and Green Plaid

Mackinaw

No greater tribute could be paid Montgomery Ward & Co. than is paid regularly by our customers who continue, year after year, to purchase merchandise from our big catalogues. We strive always to offer better values than can be obtained elsewhere, and our records from year to year prove beyond doubt that our purpose is being accomplished.

The shawl collar Mackinaw illustrated above is a striking example of our ability to serve you best. Heavy 28-ounce mackinaw material, more than 70 per cent wool. The pattern of gray, black and green is a pleasing plaid design. The workmanship is excellent. We can provide this coat for the little fellow as well as for "big brother."

Important

In each description we give the weights of the Mackinaw materials used in the garments. We do this because we buy the fabrics from the mills according to weights. Mackinaw materials come in weights from 24-ounce to 40-ounces to the yard, based on 54-inch width fabric. We want you to know the exact weights you buy from us, as many light weight fabrics are now offered at attractive prices, usually without mention of the weight. We invite comparison.

Our garments are truly illustrated and described and we guarantee complete satisfaction.

Be sure to state complete measurements when ordering clothing.

Compare Weights as well as Prices

In each description we give you the exact weight of the material from which our Jack Frost Mackinaws are made. We do this because frequently lighter weight materials are offered at prices which at first glance seem more attractive. Our Mackinaw fabrics weigh from 24 ounces to 40 ounces per yard, based on 54-inch width. If you will compare weights as well as prices, we welcome the most rigid comparison, any time, anywhere. When you receive one of our Jack Frost Mackinaws you will find the workmanship, quality, and value better than you had expected.

Dark Brown Plaid Cassimere \$27⁵⁰

SIZES: Chest, 34 to 44 inches.
Waist, 29 to 42 inches.
Inseam, 29 to 33 inches.

A very distinctive pattern is this plaid in harmonizing shades of dark brown with an almost invisible maroon plaid, a most pleasing combination in a soft, fine fabric. Excellently tailored in the neat double breasted style as illustrated. Coat is full lined with good quality alpaca. Vest is regular and trousers are well shaped. We have designed and tailored suits for the particular young men for many years, and we consider this model a worthy purchase. The well designed style and the attractive fabric make a fine looking suit which any young man would enjoy wearing.

All Wool Brown or Dark Olive Striped Cassimere \$34⁵⁰

SIZES: Chest, 34 to 44 inches.
Waist, 29 to 42 inches.
Inseam, 29 to 33 inches.

A moderate price, especially when you consider the high quality of the tailoring and extra pair of trousers. This suit, in whichever color you prefer, represents an unusual value for the money. Material is All Wool. Fashioned in trim double breasted style; alpaca lined. Both the dark brown and dark olive colors are made even more attractive by the faint silk pencil stripes about one-half inch apart. Regulation vest; cuff bottom trousers. A suit of this quality without extra trousers would cost you, in many stores, considerably more than our price for the same suit, and we add an extra pair of trousers, which almost doubles the wear of the suit.

Brown, Gray or Olive All Wool Ulsters

SIZES: Chest, 35 to 44 inches
Average length, 48 inches

These Ulsters will please both your eye and purse. Tailored of beautiful, soft texture fabrics which will give dependable service and will stand unusual wear at every point of friction.

The color range embraces three attractive shades which bespeak the season's latest fashion preference.

You will like the big double breasted ulster style, the roomy patch pockets and the neat cuffs on the sleeves. Adding to its attractiveness is the belt across the back, also center vent. Convertible collar. The body and sleeves are full lined with Venetian; which adds to the quality and makes the coat slip on easily.

The tailoring reveals the skill of expert workmen. We make these All Wool overcoats in our own factory, under our own supervision, thereby eliminating several intermediate profits and handling. The savings are indicated by our very low prices.

Olive, Gray or Brown All Wool Ulsterettes

SIZES: Chest, 35 to 44 inches
Average length, 46 inches

We bought thousands of yards of these handsome All Wool fabrics. Our expert tailors made them into stylish overcoats which any man would be pleased to wear.

These overcoats are offered in olive gray, oxford gray or dark brown—three of the season's most popular colors.

The model is a double breasted ulsterette style with patch pockets and neat, trim cuffs on the sleeves. The convertible collar may be worn as illustrated, or buttoned up close around the throat. Sleeves and body of the garment have fine Venetian lining. The back of the coat has a belt and center vent.

All interlinings and the unseen parts of construction are just as fine quality as the outer fabrics themselves. Being made in our own tailoring shops, we carefully watch every detail of manufacture to make sure the finished product will reach you perfect in every way. By this method you are assured full value for your money.

Rich Brown Melton All Wool Overcoat

SIZES: Chest, 34 to 42 inches
Average length, 44 inches

An All Wool overcoat so distinctive in style and so neatly fashionable in appearance will appeal strongly to young men. Not in years have we been able to offer such an excellent value. It promises the satisfaction which comes from wearing a stylish overcoat which is warm and comfortable too.

The warm, brown mixture is especially suited to this style of garment and is preferred by most young men this season. Melton fabric is recommended not only for its service and durability, but for its beauty also.

The trim appearance of this ulsterette model is enhanced by the soft lapel and all around belt which fastens in front with two buttons. Two roomy patch pockets have flaps. Pointed tabs and buttons on the sleeves. Body and sleeves are lined with a strong and very serviceable twill fabric.

Even though the price is low, we have succeeded in making this an overcoat of dependable quality. The good tailoring and the careful inspection at our factory will be apparent as soon as the overcoat reaches you.

Brown or Olive Gray All Wool Overcoats

SIZES: Chest, 34 to 42 inches
Average length, 44 inches

Another big purchase of woolsens makes it possible for us to offer this excellent value—an overcoat for young men and for older men who would retain a youthful appearance. The material is All Wool—heavy weight, warm and comfortable.

The faint diagonal pattern is attractive in both the brown and olive shades.

This double breasted ulsterette style, which features the raglan sleeve with cuff, has found favor with men of all ages and deservedly so because it allows for ease and comfort. The patch pockets have flaps and the collar is convertible for throat protection in bad weather. All around belt. Stylish inverted plait in back. Body is three-eighths lined with satin. Seams are piped. Satin lining in the sleeves.

The garment is a product of our own tailoring shops where the workmanship is under constant and rigid supervision. The garments are inspected frequently during the process of construction, so that our standard of tailoring may be maintained in every detail.

All Wool Dark Olive Mixture

SIZES: Chest, 34 to 42 inches.
Average length, 44 inches.

Advanced fall style combined with moderate price makes this All Wool Overcoat a big value. A belted ulsterette of this kind is popular for both men and young men and in the lustrous shade of dark olive the appearance is especially pleasing. The full lining of durable twill not only adds to its warmth but also helps to retain the original shape. Woolens frequently will pull and sag out of shape and stylish lines disappear unless the interlining is substantial.

All Wool Olive Gray or Brown Overcoating

SIZES: Chest, 34 to 42 inches.
Average length, 44 inches.

These Overcoats have individual style. They fit perfectly and the tailoring throughout is well worthy of the warm All Wool fabrics of which they are made. Conventional patterns of olive gray mixture or a dark brown mixture with contrasting backs. Garments of equal value usually sell for much more elsewhere. Curved yoke and inverted plait in back—a style detail generally found only in much higher priced garments. Coat is ¾ lined with satin and sleeve linings are of satin. A remarkable value.

When Cold Weather Comes

You men, who work out of doors know from experience how raw and bitter are the driving winter winds, often accompanied by sleet and snow.

For that kind of weather you need one of these weatherproof coats to keep you dry and warm. They are strongly constructed over full patterns and have just the right length and weight to allow free active movement. These coats have beaverized sheepskin collars and an extra warm full blanket lining; around the wrists are close fitting knit wristlets. Many of them have the added protection of rainproof slicker interlining.

These Merchandise Tests Are Safeguards to Quality

WARD'S Research Laboratory plays an important part in our ability to offer you *better* goods at *lower* prices. Our prices are lower because of the watchfulness and efficiency of our large staff of merchandise men. The quality of our goods is higher largely because of the efforts of our Laboratory.

Searching, analyzing, examining; with test tube, retort and microscope—the chemists in Ward's Laboratory are always alert to protect you by keeping our stocks free of merchandise which shows even the slightest evidence of inferiority.

A Double Service to You

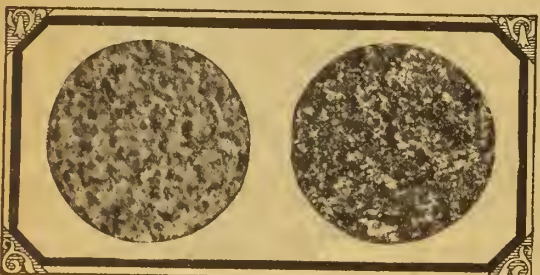

Ward's Research Laboratory assures your getting only goods of highest quality for the price you pay. When the description in our catalogue says "All Wool" it means rigid tests have proved every fiber to be 100% Wool. Each and every thread in the sample of cloth in question has been analyzed—and every single thread has passed the test. Thousands of dollars' worth of merchandise submitted to us by outside manufacturers is rejected every year because it fails to meet our strict requirements.

Our Laboratory activities enable us to buy for you articles of high quality at prices so low we would not dare take advantage of them until we found them up to Ward's high standards. An unusually good example of this occurred last winter. The very lowest price for an All Wool Dress of certain quality was at that time about \$15. A well known woolen mill offered us thousands of yards of woolsens at a price so low our buyer hardly could believe the material all wool and high grade. Samples of it were sent to our Laboratory. Careful analysis showed it was all the manufacturers represented it to be. Therefore, we bought the lot. You were offered in our Mid-winter, 1922, Sale, an All Wool Dress for only \$5—about one-third the price others were asking at the time for dresses of like excellence.

In the same way you save on every article purchased from Ward's. Our complete stock—Everything for the Family, the Home and the Farm—is carefully selected to give you the greatest possible value at the lowest possible price. Careful tests prove the quality. The savings are passed on to you. "*Better goods for less money*" is our unbroken policy.

The photographs above, taken with the aid of a microscope, show clearly the difference between artificial and genuine wool. The one at the left is Solidoma (Artificial Wool) while the other is genuine South American Cross Bred Wool.

Seen through a microscope, steel shows clearly whether or not it has been heat treated and properly tempered. In the photographs above, the steel at the left has not been heat treated. That at the right has. The difference is quite apparent.

What Our Experts See

The number of astonishing bargains our merchandise men find every season proves they know their business from the ground up. This catalogue is filled with such values. The most careful tests have showed every article up to standard in every way. Read these actual quotations from Research Laboratory Test Reports picked at random. They prove the high character of Ward's goods.

Coat

"Microscopic tests of every thread show 100% virgin wool." *Lot Accepted.*

Sweater Blouse

"Microscopic tests of every thread show 100% virgin wool." *Lot Accepted.*

Lace

"Microscopic analysis of every thread shows 100% linen." *Lot Accepted.*

Handkerchiefs

"Laundered fine. Fifteen minutes hard boiling and washing with regular laundry soap proved colors fast. Ironed smooth and soft." *Lot Accepted.*

Differential Ring Gear for Fords

"Analysis shows this gear has been hardened properly. Require 8,000 pounds pressure to make an indentation .124 inch in diameter. Will stand up well under hard usage." *Lot Accepted.*

Your satisfaction is assured because everything we sell is analyzed and examined with the utmost care.

It is impossible for any manufacturer to sell us inferior for genuine goods without our Laboratory discovering it. The photographs above—taken through the microscope—show how real Linen (at the right) differs from Ramie, a linen substitute.

The photographs above are both of cotton. The cotton at the left was grown in China—that at the right is a product of Alabama. Even such small differences in variety are shown clearly by the microscopes in our Research Laboratory.

Shoe Measurement Chart For Men, Women and Children

Fitting 3,000,000 Shoe Customers Yearly A Personal Letter

From L.A. Bilger, Manager of Our Shoe Department

TO buy shoes that will fit your feet correctly is one of the greatest and most important aims of this department. When a shoe is selected to be illustrated in the catalogue, it is analyzed and studied not only from the viewpoint of style, quality and value, but also from the viewpoint of fit. We can say honestly that we have been successful in fitting our customers' feet. We attribute

this to our knowledge of shoes, to the close study we have given to the needs of our customers, and to the co-operation we have obtained from shoe factories where special machinery and shoe lasts have been installed to make our shoes according to our specifications. Fitting 3,000,000 shoe buyers yearly by mail is a great accomplishment, which reflects not only the good fitting quality of our shoes, but the superior values as well.

LUKE A. BILGER,
Manager Shoe Department.

Special Shoes Shown on the Next 30 Pages

Arch Support Shoes

A Arch Support Shoe for Men be found on Page 301. Inside arch support sustains the foot and prevents foot from turning inward at the ankle.

Short Vamp Shoes

Special Short Vamp, Wide Ankle shoes for Women shown on Page 296. Made especially for heavy, bony feet. The vamp is extra short and wide.

Footform Shape Shoes

Children's Footform Shape Shoes shown on Pages 296, 297, 298, 299, 300. They follow in close conformity the natural outline of child's foot.

Wide Ball Shoes

The ball of the foot is the fleshy part back of the toes. On Page 302 is a shoe for men, built to fit comfortably the wide ball part of the foot.

Wide Ankle Shoes

Wide Ankle Shoes for Women will be found shown on Pages 288, 292 and 294. Both for dress wear and for everyday wear, where comfort is most desired.

Hand Turned Sole Shoes

Women's Hand Turned, Flexible Sole Shoes will be found shown on Pages 288 and 292. They are supreme for comfort—bend with every step you take.

Women's Goodyear Welt Shoes are shown on Page 287—Men's on Page 303. The best sole construction known to shoe manufacturers. Cheapest in the end.

In Addition to Using the Chart—

When Ordering Women's Shoes

It always is advisable for men who are changing from a low heel shoe to a high heel shoe to order shoes one-half size shorter than those they have been wearing, because the high heels raise the arch of foot up, making the foot a half size shorter. Similarly, one-half size larger shoes should be ordered by those who are changing from high heels to low heels. We ask you to be sure to do this. It will insure you of receiving good fitting, comfortable shoes which always wear longer.

Explanation of Our Shoe Widths

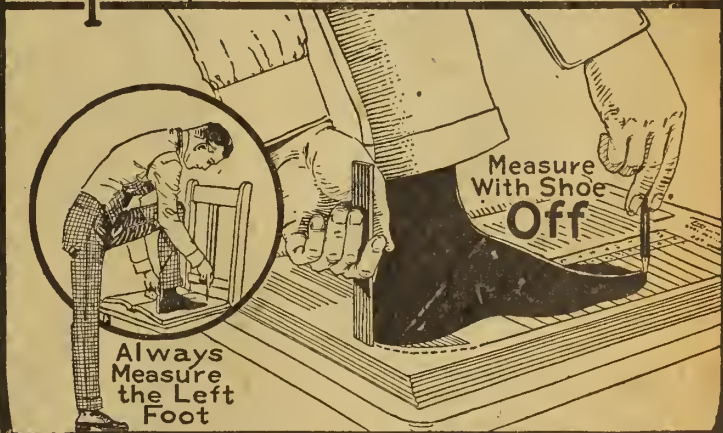

- A—Extra Narrow
- B—Narrow
- C—Medium
- D—Medium Wide
- E—Wide
- EE—Very Wide

- EEEE—Widest Made

To Fit Rubbers Correctly

Place your shoe on a piece of plain paper. With a pencil trace an outline of the shoe around the edge of the sole and heel. If possible, see exactly what numbers appear on the inside of the shoe and write them on the paper with the outline. Be sure to mention whether the rubber is for a high or low heel shoe. A high heel rubber will not stay on a low heel shoe and a low heel rubber will not stay on a high heel shoe. For full line of rubbers, see Page 309 of this catalogue.

Benefactor Patent Pressure Process Rubber Footwear

Best Quality Means Lowest Cost in the End

The Patent Pressure Process is a method of vulcanizing a Boot or Shoe into a solid mass to render the highest efficiency in wearing qualities. The materials used in Benefactor Quality Rubber Footwear, which includes the soles and heels, are strengthened by the remarkable Patent Pressure Process. It does to rubber what tempering does to steel, and makes this brand a superior value. Every pair is trim and permanently shaped—the sure mark of skilled craftsmanship. They fit well and give maximum comfort—for they are made on carefully designed lasts. They are longest wearing because they are Patent Pressure Process cured and reinforced where the wear is hardest. Benefactor Quality at our price is a genuine economy.

Men's All Rubber Hi-cut Work Shoes

These are our Benefactor Quality Patent Pressure Process Hi-cut Work Shoes. Red, white or black rubber uppers of heavy weight are molded into one solid piece by the patent pressure process. Dependable Travel Equipment = Splendid Values

Improved Dome Top
Wardrobe Trunk

**Just Like
Taking Your
Clothes Closet
With You**

When you arrive at the end of your journey, you want your clothes to be neatly pressed and ready to wear, just as they were when you started. This is possible only with a Wardrobe Trunk.

In these sturdy, dependable Wardrobe Trunks your clothes hang as though in a closet. There is a place for everything—separate compartments for shoes, shirts and hats—with a separate hanger for each suit or dress. The wardrobe trunk stands in a corner and taking things from it is as simple as from a bureau or clothes closet. Unlike ordinary trunks, these are especially useful and handy at home. In many homes they serve every day as clothes closets. The locks are secure. They are stoutly made to last for many years.

At our low price you no longer should deprive yourself of this great convenience.

It Is Easy to Figure Parcel Post Charges

On this page we give the necessary information to enable you to figure correctly the parcel post charges on merchandise you order from this catalogue. The parcel post map shows the territory served by our Chicago House, the rates representing zones. The scale of parcel post rates shows the charges to the various zones for

packages weighing up to fifty pounds; also for packages weighing not more than seventy pounds.

Before writing out your order, be sure to read instructions on the next page. "It Is Easy to Order from This Catalogue."

Make Out Your Order and Figure the Parcel Post Charges as Follows

Go through this catalogue and select the items you want to order. On many items we have stated the amount of postage necessary to send, on others we show only the weight.

To figure the parcel post charges on your order, separate the articles to be ordered into two lists; one for items where weight is given, and the other where postage is given.

Add up the weights given. Then refer to the map on this page and find the zone in which you live, either by locating your

own town, or the one nearest you shown on the map.

Then look in the table at the right, in the column for the zone in which you live, and you will find the amount of parcel post charges opposite the weight given in the first column.

Add to that figure the amounts of postage for the other items as shown in the catalogue, and you will have the proper total for postage to add to your remittance.

This Example Shows You How

Suppose you live in Zone 3 from Chicago and are ordering items weighing 12 pounds in which the catalogue does not show postage. First, you would look in the table under Zone 3 and you would find that the parcel post charges on 12 pounds are 30 cents.

Then if your order included other items on which the catalogue shows postage amounting to 20 cents, you would add this to the 30 cents already figured, thus making 50 cents parcel post charges to include in your remittance.

How to Estimate Express Charges—Freight Charges on Following Page

This is an official scale of Graduated Express Charges. These rates are those in effect when this catalogue was printed. They are subject to change. First refer to the table on Page 321 under heading, "Table Showing Freight and Express Rates," and find the express rate to your nearest station. In the column below under your express rate for one hundred pounds, will be found the amount you will have to pay on express shipments from one to fifty pounds. If the exact weight of your goods or the rate to your station is not shown, refer to the next higher rate

or weight and the result will be within a few cents of the correct charge. For example, if you find by referring to the table on Page 321, that the rate to your town is \$3.67 per 100 pounds and your packages weigh fifteen pounds, the express charge will be 84 cents, except on groceries. The charge on foodstuffs, is one-fourth less than the charge on other merchandise.

Express is a quick and safe method of shipping. The express agent in your town will explain his company's service, and will tell you the correct charges on any shipment.

Articles marked thus—*—are shipped from a factory or warehouse direct to you, and freight charges are based on the distance from the factory to your town. If you will write us for information we will be only too glad to tell you the exact shipping charges on any such article from factory to your town.

It Is Easy to Order from This Catalogue

For your convenience when ordering, we have inserted several order blanks in the back of this catalogue. Write your orders on them. You may, however, use any plain sheet of paper.

Be sure to give us the necessary information to enable us to fill and ship your order promptly. If you will follow the suggestions below, when writing out your order, it will help us to give it prompt attention.

Please Order Under One Name for the Entire Family

All goods for the same family should be ordered under the name of the head of the household, and the name should be written plainly and in full. For instance: If you sometimes write your name John J. White, do not sign J. J. White. This will enable us to keep our records correctly. Give your post office, and state. If you live in town give street and house number; if you live in the country, give rural route and box number.

How to Order

Go through this catalogue, select the articles you want and write out the following information:

- 1 Give article number, quantity desired, name of the article, size, color, price, and any additional information that will help us fill your order just as you want it.
- 2 State the exact amount of money sent with your order.

How to Send Money

Send remittance in the form of post office or express money order, bank draft, or personal check. If you send money, be sure to send it by registered mail, securely folded in heavy paper.

Our terms are cash. We employ no agents or solicitors.

If you live on a rural route, you can pay the money to your mail carrier. He will buy the money order and enclose it with your letter.

If you want your order shipped by parcel post or by prepaid express or freight, enclose an extra amount of money to pay transportation charges. We will return any balance due you after charges have been paid.

Complete instructions regarding parcel post, express and freight rates will be found on Pages 319 and 321. Read special instructions on those pages before completing and mailing your order.

Books and Unmailable Articles

Books weighing eight ounces or less may be mailed for one-half cent an ounce. Books weighing over eight ounces are charged for by the pound at parcel post rates, the rate per pound varying according to the zone into which the package must be carried.

Unmailable Articles. A few drugs and explosive or poisonous articles are not mailable. They can be shipped only by freight or express. These articles are so marked in the descriptions.

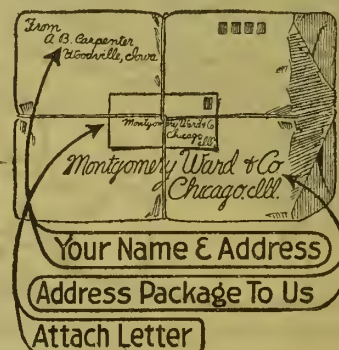

About Factory Shipments

In order to give you the benefit of the lowest possible prices on all merchandise, in some instances we ship heavy or bulky articles direct to you from one of our factories or warehouses.

When an article is to be shipped from one of our factories or warehouses, we mention this fact in the catalogue description and you should figure freight charges from the point of shipment instead of from Chicago, Ill.

How to Return Goods

Under our unchanging policy of "Satisfaction Guaranteed or Your Money Back," you are at liberty to return any goods which do not fully satisfy you. When returning merchandise to us please follow these simple instructions:

1 If you return goods by parcel post, wrap the package securely in heavy paper and tie it with strong string. Write your name and address in the upper left hand corner and our name and address in the lower right hand corner as illustrated. Then write us a letter giving full instructions regarding the change you want made in your order. Please tell us why the goods are being returned, or are unsatisfactory. Enclose the letter in an envelope, and seal and attach the envelope to the outside of the package as shown in the illustration. Be sure the envelope is under the string and securely pasted to the package.

Place a 2 cent stamp on your letter, and pay parcel post rates on the package. Do not seal the package as this violates the postal laws.

2 When goods are to be returned by express or freight, your letter should be mailed to us as soon as you have shipped the goods. Enclose with your letter the receipt given to you by the agent at the time you shipped the goods.

Special Note. If the merchandise was shipped to you direct from one of our factories or warehouses, be sure to write us for shipping instructions before returning the goods. We request this so we may tell you where to ship the goods, whether to our factory or direct to our store in Chicago. When returning goods by express or freight, be sure to write your name and address on the package or crate, so we will know who sent it. We shall appreciate any suggestions from you that will enable us to improve our service.

Complete information about parcel post, express and freight rates will be found on Pages 319 and 321.

How To Estimate Freight Charges

Helpful Service For You— Take Advantage of It!

We maintain a force of expert freight clerks for your convenience. Use them. If you are thinking of buying some article, and want to know what the freight charges will be to your station, write us.

We Save You Money on Freight Charges

We pack all merchandise so the shipment will cost you the lowest possible amount for transportation charges, but we always consider first the safety of the merchandise and our satisfaction. Every article is packed to each you in good condition.

First, find the classification of the article in the Freight Classification below. If the article is not listed, take the classification of one similar. Now find your nearest city in the Freight and Express Table and use the rate under the class of your article. If your town is not shown in the rate table, figure from the town nearest to your station. Then multiply the rate by the weight of the article given in the catalogue description.

The merchandise described as shipped from a factory takes the rate from the city where the factory is located, to your town. We will be glad to tell you the exact shipping charges on any item, if you will write to us for information.

EXAMPLE: Suppose you live in La Crosse, Wisconsin, and want to find the freight charges on a Stove or a Hand Pump, or a Tank Heater—or any item shipped by freight from stock in Chicago. This merchandise takes third class rates from Chicago and the third class rate to La Crosse is 51 cents per 100 pounds. If the merchandise weighs 350 pounds, the charges would be $3\frac{1}{2}$ times 51 cents or \$1.79.

Minimum Freight Charges Are Based on 100-Pound Shipments

The minimum freight charge of the transportation companies is based on 100 pounds. It is, therefore, to your advantage to include enough items to make your order weigh at least 100 pounds because you pay freight for this amount whether your shipment weighs 10 or 100 pounds. Over 100 pounds you pay freight for only what you get. Thus, if 100 pounds cost you 60c for freight, 110 pounds would cost you only 66c.

When several articles of different classifications are ordered, the freight rate is based on the highest classed article.

Freight Rates on Factory Shipments

Many articles we sell, especially heavy or bulky goods, are shipped direct from one of our factories in order to save handling charges. Therefore, when figuring freight charges on factory or warehouse shipments, remember that you pay freight charges from point of shipment and not from Chicago. The catalogue description tells you when an article is to be shipped from factory or warehouse. When in doubt about freight charges, write us; we will gladly give you full information.

We Celebrate Our Golden Jubilee Year by Perfecting Our Service to You

A YEAR AGO we talked over the celebration of our Golden Jubilee Year—of what we would do to mark the beginning of our second half century.

We decided that the most fitting celebration would be to devise a new method of serving you — our customers.

You are responsible for building this business. Your patronage, your faith in Montgomery Ward & Co., has built this business to its present magnitude. Our best celebration would be to announce an improvement in our service to you.

A year's hard work and study has been given to this subject. And today we announce the result — a new, perfected system of order filling that means —

Your Orders Shipped in Less than 48 Hours

Our new system has been in operation five months. During that time ninety-six orders out of every one hundred have been shipped to our customers in less than 48 hours.

We can therefore safely announce the success of our new system. We say to you: "Send your order to Montgomery Ward & Co. It will almost certainly be shipped in less than 48 hours after it reaches us."

Now the advantages of buying from Montgomery Ward & Co. are plain and certain. We offer you only dependable, serviceable goods; we offer you the lowest prices possible, quality considered, and we will ship your orders promptly, as practically every order received this season will be shipped in less than 48 hours.

Again we say to you —

The Oldest Mail Order House Is Today the Most Progressive

MONTGOMERY WARD & CO.

Hardy and Productive Fruit Trees-Plants-Vines

All Select, High Grade Stock. Freshly Dug and Securely Packed
Grown in Ideal Nursery Climate. Guaranteed True to Label

Safe Delivery Guaranteed.

Every country home should have an orchard and an arbor. They make the home site more beautiful and homelike. They provide fresh, delicious and wholesome fruits for the entire family, reduce the cost of living, and in almost every locality may be made a source of substantial profit. The fall of the year is the ideal time to plant all kinds of fruit trees and grape vines. Other work is not so urgent; the soil works up nicely and the young trees and vines become well established before the hot, dry weather of the summer months to follow. Trees and vines properly planted this fall are almost sure to live. We offer you first class stock and first class service—you can depend on both.

Where Nature Helps

All our stock is grown in a large, well established nursery in Southern Illinois. The soil in this locality is peculiarly adapted to the production of hardy nursery stock. The climate, too, is especially favorable. The seasons are not too long, as in the South, or too short, as in the North. They are free from prolonged extremes of heat, cold, and dry, parching winds. Stock grown in this ideal central climate grows well wherever the different varieties of fruit trees can be grown. It often thrives in localities where it has been believed such varieties could not be grown successfully.

You Take No Risk

Nursery stock can be purchased safely only from a reliable house. You take no risk when you order from Ward's. We guarantee all our stock to be of finest quality, entirely free from disease, hardy, true to label, and fully in accordance with our specifications. The stock is freshly dug and securely packed after your order is received. It is then shipped promptly and direct to you from the nursery—it does not pass from one distributor to another. It reaches you full of freshness and vigor, and in prime condition for planting. You take absolutely no risk in purchasing your nursery stock from us. Safe delivery guaranteed or your money refunded.

Fall Shipments

The season for fall shipments begins about October 5th and ends in December. You may place your order before October and shipment will be made as soon as stock is available. Nursery stock may be shipped satisfactorily by parcel post, express or freight. All shipments are made direct from nursery in Southern Illinois. In ordering, specify when you want your stock shipped and how. If wanted by Parcel Post, include the extra amount required for postage. (If you are interested in nursery stock not listed below, write us for lowest prices. We can save you money.)

In shipping, we take the greatest care to wrap and pack the stock so it will reach you in perfect condition. On fruit trees such as shown above, we pack moist around the roots and wrap securely with heavy burlap. We guarantee SAFE DELIVERY.

Peach Trees

PEACH growing is today a great industry. The comparative ease with which peach trees may be cultivated, their freedom from disease, the short period before they come into bearing, together with the persistent demand for the tasty fruit, makes peach growing very profitable. You never may know how really delicious peaches can be until you pick them fully ripened from your own trees. Our peach trees are unusually hardy and productive. Choose from the following varieties, ripening in the order listed below:

Mayflower—Earliest of all peaches. Gloriously red all over. Juicy, sweet, and fine flavored.
Redbird—Bright red color. Sweet, juicy, white flesh. Large as Elberta.
Carman—Fruit large, white, with deep blush. Hardy and productive.
Belle of Georgia—Very large, white freestone peach, with a red cheek. Tree thrifty and very productive.
Early Elberta—Fruit large as Elberta, same shape and color, but 10 days earlier and harder. Very productive.
J. H. Hale—(Genuine). Larger than Elberta, yellow freestone peach of fine quality. Flesh firm and meaty. Largest peach grown. Ripens five days earlier than Elberta.
Elberta—The leader of all peaches and the most popular commercial variety on the market. Yellow, freestone, large, juicy fruit. A delicious variety.

Mammoth Heathling—One of the sweetest and most luscious peaches. Favorite for canning and preserving.
Other Varieties—Engle's Mammoth, Rochester, Greensboro, Fitzgerald, Gold Drop, Niagara, and Crawford's Late.

Plum Trees

Plums are one of the finest fruits grown, being valuable for canning, preserving or drying. Tree occupies but little room in the orchard or garden and begins bearing in two years. As a market fruit, plums always find a ready sale.

Mammoth Gold—A big golden plum, extremely early. Fine quality and enormously productive.
Omaha—Very large, round, dark rich red; flesh meaty and delicious. Extremely hardy and productive.

Abundance—Large, showy fruit. Beautiful, rich bright cherry color. Flesh light yellow, sweet and juicy.

America—Early, large, glossy red. Firm, sweet flesh.

Shropshire Damson—An English variety. Fine for preserving.

Thanksgiving Prune—Fine quality. Keeps for weeks after picking.

German Prune—Purple or blue in color. Juicy, rich and high in quality. Brings best price in market. Hardy and productive.

Waneta—The largest of 10,000 seedlings. Averages two inches in diameter. Good red color. We particularly recommend this plum.

Cherry Trees

The most ornamental of all fruit trees. This, together with its delicious and refreshing fruit, makes it very desirable for planting near dwellings where beauty and shade, as well as fruit, are desired.

Choice of following varieties:

Early Richmond—Very prolific; good size; dark red, melting, juicy. Acid unsurpassed for cooking and canning.
Baldwin—Noted as an early, hardy, productive and vigorous variety of superior quality. Large, dark red, rich sub-acid flavor.
Montmorency—The well known canning cherry. Large size, light red, short stem. Enormously productive. Begins to bear soon after being planted. A good market variety. Tree very hardy, thrifty and free from disease.
English Morello—Fruit dark red, good quality, with rich acid flavor. Tree hardy, vigorous and productive.
Wragg—Much like English Morello, larger, more productive.

Black Tartarian—Very large, juicy, rich and sweet. Tree is a vigorous grower and highly productive.
Bing—The most delicious sweet cherries grown. Fruit large, dark brown or black, and of very fine flavor.
Royal Ann—Largest size, firm, juicy. Fine for canning.

Grape Vines

Every garden or yard should have grape vines. They are easy to grow and require but little care. They may be confined to a stake or trained over a

fence or arbor. Our grape vines are hardy and productive. They begin to bear the second or third year. Choice of:

Hubbard—The famous table grape. Black, tender and juicy, sweet, rich flavor. Ripens early.

Ca-Co—Berry extra large, bright wine red. Rich in sugar and is fit for use before ripe.

Concord—The most extensively planted grape in America. Bright—Red. Bunches large, long and shouldered; medium size berries, thin skin. Flesh tender and very sweet.

Delaware—Red. Bunch compact, flesh juicy, sweet.

Diamond White—Unusually juicy and has few seeds.

White grape, ripening before Moore's Early.

Moore's Early—A very early black grape. Bunch and berry large, better quality than Concord. Extra hardy.

Niagara—White. Berry large, tender and sweet.

Worden—An excellent black grape, as hardy and productive as Concord. Better and bears earlier.

Catawba—Great wine grape. Berry of coppery color.

Lucile—A most unusual red grape yielding more than Concord, Niagara or Worden. Flesh rich, juicy, delicious, and refreshing. Specially recommended for the Northern states. Berries do not drop but dry into raisins on vines.

Apple Trees

OUR apples are budded and grafted on imported whole roots. They are not affected with root-gall, aphids, etc., as seedlings. The trees are much hardier, longer lived and less subject to blight.

Choice of one and two-year-old apple trees. The one-year-old trees are not branched but when headed back to the right height will make a better top than many of the older trees. The two-year-old trees are branched.

SUMMER VARIETIES

Yellow Transparent—Large size. Fine flavor, juicy.
Wilson Red June—Large, crisp, juicy fruit. Fine flavor.
Liveland Raspberry—Beautiful red; flesh snow white.
Williams' Early Red—Crisp, juicy fruit, highly productive.
Duchess of Oldenburg—Red striped; flesh white, juicy.

FALL AND WINTER VARIETIES

Jonathan—Table or eating. Flesh tinged with red.
Grimes Golden—A splendid table apple. Rich, tender.
Delicious—Large, firm, dark red. Fine apple for shipping.
Wealthy—Fruit red with white streaks; tender and juicy.
Stayman's Winesap—Largest of the family; dark red.
Rome Beauty—Fruit large, yellow skin mottled red.
Winter Banana—Flesh a golden yellow, rich and juicy.
Other varieties we can furnish—Winesap, Baldwin, Gano, Talman Sweet, McIntosh Red, N. W. Greening, Wagener, M. B. Twig, Black Bendavis, King David, Winter Paradise, Golden Russet. **Crab Apples**—Red Siberian, White or Transcendent.

Pear Trees

The pear is one of the highest quality fruits. In nothing else that grows and in no confection made, can you get the refreshing tang and honeyed sweetness of pears grown in your own orchard or garden. Our pear trees are all tested and of select stock. Full line of most popular varieties, ripening in order as listed below.

Clapps Favorite—Large, long, yellow pear; flesh fine grained, juicy, melting and buttery.

Bartlett—The best known high quality pear. Large yellow, waxy skin, juicy, highly perfumed, refreshing.

Lincoln—Very large, yellow fine grained pear. Flesh sweet, juicy and delicious. Trees hardy and productive.

Flemish Beauty—Large, beautiful fruit. Rich and juicy.

Garber—Good size fruit. Trees are enormously productive.

Kelffer—Large, rich golden yellow; excellent for canning.

Winter Nellis—The great winter sugar pear. The largest latest, best keeping pear. Can be held in storage until spring. Flavor sweet, spicy, juicy and delicious.

Each Quality Is Full Value at the Price
Whether you buy our "Selected," "Fine," or "Medium" quality, you will receive full value for the amount you pay. Each quality represents unusual value at our prices. We believe our prices are much lower than those charged elsewhere for diamonds of equal quality. Be sure to read, on opposite side of this page, about our exceedingly liberal written guarantee which is sent with each diamond.

"Selected" Quality
Our "Selected" quality, carefully inspected diamonds of excellent color. Perfectly cut and wonderfully brilliant. Anyone would be proud to possess diamonds of such splendid quality.

"Fine" Quality
Our "Fine" quality is slightly different from our "Selected" quality. Usually the color is just as good, but the cutting is not quite as fine. Represents special value at our low prices.

"Medium" Quality
Our "Medium" quality is not quite as good as our other qualities, but is free from objectionable flaws. There is nothing about the color or cutting which would interfere with the brilliancy.

Ward's 7-Diamond Cluster Ring
The diamonds used in our 7-diamond cluster rings are our "Selected" quality — carefully sorted and matched. They are set in a disc of platinum because its clear color blends most perfectly with that of the diamonds, giving the 7 diamonds the appearance of one large diamond. The platinum being strong and tough, holds the diamonds most securely. The cluster is then set in a yellow 14-karat solid gold ring which has white gold prongs. The same excellent quality of diamonds are used in all of these clusters, the difference in price being due to difference in size.

Enlarged illustration shows our "Faultless" 7-diamond cluster as it appears in the 14-karat solid gold "Solitaire." 545 C 460

The Sapphires Are Closest Imitations of Diamonds

These White Synthetic Sapphires and Red Synthetic Rubies have the same chemical composition as the genuine mined stones. Made by expert chemists. Truly wonderful reproductions which stand the test of fire and acid and can be detected only by experts. These sapphires are the closest imitation of diamonds. All of the sapphires and rubies are of the same high quality; the difference in prices being due to difference in size of stones and quality of settings. Ladies' rings furnished in sizes 5 to 10. Men's rings in sizes 6 to 13. Instructions at bottom of this page tell how to find correct finger size.

How to Find Finger Size

To Get Correct Size From an Old Ring

If you have an old ring that fits your finger, place it over these circles till you find the one that is the exact size of ring inside. The number inside the circle denotes your finger size. If your ring is smaller than one circle and larger than the next, order one-half size between. For a wedding ring or hand ring order one-quarter size larger than the measure indicates.

To Get Finger Size

Wrap a narrow strip of paper snugly around largest part of finger. Cut paper off so the ends just meet. Place it on scale above, so that one end of strip just covers black line at point A. The figure at the other end of strip is your finger size. If end of strip falls between two numbers, order one-half size larger than smaller number. For wedding or band rings, order one-quarter size larger than actual finger size.

Your Name in Gold Free on Any Pen on This Page

Something entirely new—a very recent invention, enables us to put your name in gold letters on a fountain pen. Be the first to show these

wonderful pens to your friends. We will put any name, in gold letters, on any fountain pen on this page—free. The pen below shows how

it will appear—adds distinction and beauty to the pen. When you order, write plainly the name you want put on.

The "Lakeside Giant." A strictly new and extra large size fountain pen. The barrel large and holds twice as much ink as an ordinary fountain pen—has just the right "feel" and is easy writing. Pen point is heavy 14-Karat solid gold, substantial and large, slanted with iridium so it will resist wear years to come. Gold filled lever self-filler safety pocket clip built permanently into the barrel. An ideal fountain for those who do a lot of writing. One of our biggest fountain values. Shown actual size.

Lakeside Fountain Pens and Pencils

Pictures are Reduced in Size Unless Stated Otherwise

Lakeside Fountain Pens are made to give complete satisfaction. Not cheaply constructed with low price the principal consideration—but carefully made to give satisfactory service. Points are 14-Karat solid gold of full length and substantial weight; tipped with iridium, an extremely hard metal, which provides a smooth and long-wearing point. Barrels have caps which are carefully ground and fitted to make the pens completely leak-proof. Your choice of fine, medium or coarse point.

Postage on each fountain pen or pencil, 3¢ extra. All are full standard size. Shown reduced size unless stated otherwise.
